46th annual report
including
summary of annual statements
by the
director
of the
department of insurance
to
james r. thompson, governor
state of illinois

for year ending december 31, 1980
(including fiscal report for year ending june 30, 1980)

STATE OF ILLINOIS
DEPARTMENT OF INSURANCE
SPRINGFIELD, ILLINOIS 62767

OFFICE OF THE DIRECTOR

Honorable James R. Thompson
Governor
State of Illinois
Springfield, Illinois

Dear Governor Thompson:

I am pleased to submit the Annual Report of the Department of Insurance covering the period of January 1, 1980, through December 31, 1980.

This Report describes the major activities and regulatory accomplishments of the Department and includes a summary of the financial data of all insurance companies licensed to transact business in the State during 1980.

Respectfully submitted,

Philip R. O'Connor

Philip R. O'Connor
Director of Insurance

a chronology of the department of insurance

1869–Legislature adopts first insurance laws for the State of Illinois

1893–Department of Insurance is created

1917–Department of Insurance is placed under the Department of Trade and Commerce

1933–Department of Trade and Commerce is abolished; Department of Insurance is re-created

1937–Insurance laws are codified

1980: the year in review

During 1980 the Illinois Department of Insurance focused attention on a number of new regulatory programs and continued its progress in several other areas:

anti-arson program

Early in 1980 the Illinois Department began an aggressive movement to reduce the frequency of fraudulent insurance claims arising from arson. At the forefront of the attack was a comprehensive legislative package to discourage arson-for-profit. A complete description of those bills is contained in the legislative summary beginning on page 11.

In addition to the legislation, the Department stepped up its internal procedures to increase industry awareness of the arson problem and to assist claims personnel in reducing fraud. Companies were advised that Departmental Rule 9.19 (Improper Claims Practices) provides an appropriate means for resisting suspicious claims and were warned that market conduct examiners would be closely monitoring insurer compliance with reporting requirements for property insurance fires of suspicious origin.

Lastly, in December Director Philip R. O'Connor appointed a fifteen-member task force of legislators, community organization and insurance industry representatives to seek ways to remove the profit incentive from arson. The task force will examine different types of insurance policies utilized by the Illinois FAIR Plan on residential multi-family units to assure that equitable loss settlements occur, arson-for-profit is discouraged, and neighborhoods are revitalized.

The task force will release its final report and recommendations in early 1981.

governor's arson advisory board meeting

health care issues and cost containment

The year 1980 marked progress in implementing new cost containment schemes.

Chicago Blue Cross/Blue Shield activities to control costs of health care for subscribers were re-evaluated during the Department's March hearings on Blue Cross rate increase requests. When the Department denied increases on the grounds that the insurer had not made the vigorous efforts required by statutes, it sparked a new series of discussions with the insurer to explore innovative cost containment programs.

In workers' compensation, the Department set to work implementing the cost containment recommendations of hearings held in late 1979 by the Illinois Industrial Commission and the Illinois Department of Insurance. The hearings were unique in researching areas traditionally overlooked in states' review of possible cost savings.

Performance standards for carriers' medical cost containment efforts were established for use in evaluating company activities in review of rate requests. Results have already been observed in the number of cost containment programs newly established by carriers since the hearings. In addition, the efforts have generated for the first time joint discussions among insurers for sharing ideas and information related to cost containment.

The Department joined with a number of state agencies and the Governor's office in 1980 to investigate cost containment programs applicable to the state's own insurance coverage. One result has been the establishment of cost containment guidelines for selecting and evaluating the performance of accident and health carriers.

anti-theft panel

Pursuant to legislation that became effective January 1, 1980, Director O'Connor named an advisory panel to recommend anti-theft systems which merit decreases in comprehensive automobile insurance coverage premiums. The panel was comprised of representatives from the insurance industry, the insurance department and other regulatory and law enforcement agencies.

The panel's findings, recommendations and proposed rule were submitted to the Director

at year end and approval of those systems qualifying for discounts will be forthcoming in 1981.

illinois insurance exchange

In June of 1980 the Illinois Insurance Exchange officialiy opened its offices in Chicago. At year end, seven syndicate commitments (including three of the largest U.S. insurers not domiciled in Illinois) had been received and eight broker applications had been approved.

The Interim Board of Directors voted at its November meeting to increase its number to nineteen, thus giving newly formed syndicates and others the opportunity to become active participants on the Board.

dread disease insurance

An in-depth study of the dread disease and cancer insurance market was completed in 1980. The study included regulatory postures of all states, the basis for any adverse regulations, and the impact on and value of this form of protection from the consumer's viewpoint.

The final recommendations resulting from this study will be implemented in 1981.

agent/broker task force

In mid-1980, a task force of members of agent/broker and insurance company associations, educators and Department staff was formed to review Article XXX (Agents and Brokers) of the Illinois Insurance Code. The task force was charged to determine if any revisions of the Article would facilitate the licensing and regulatory processes, and to examine the feasibility of pre-licensing education requirements and/or a continuing education program.

The recommended revisions are expected to be introduced in the spring 1981 legislative session.

rules and regulations

Departmental rules promulgated in 1980 included: Rule 8.03 (Lending of Securities); Rule 9.30 (Life Insurance Solicitation and Cost Comparison); Rule 31.17 (Licensing Requirements and Procedures for Agents and Brokers); and Rule 48.01 (Workers' Compensation and Occupational Disease Act Coverage Assigned Risk Plan).

Among the rules revised in 1980 were: Rule 7A.04 (Rules and Rate Filings); Rule 8 1/2.01 (Insurance Holding Company Systems); Rule 9.07 (Exempt Sale of Insurance Company Shares); Rule 9.17 (Life Insurance Replacement Regulation); Rule 31.03 (Application, Qualification and Restrictions on Temporary Licenses, Examination Application and Eligibility and Rescheduling Procedures); and Rule 31.13 (Premium Fund Trust Account).

special reports

The following reports and publications were issued by the Department of Insurance during 1980:

Workers' Compensation: A Blueprint for Cost Containment (jointly commissioned by the Department of Insurance and the Illinois Industrial Commission); summary of property/casualty loss reserves; property/casualty complaint ratios; life/accident and health complaint ratios; ZIP Code reports of residential property insurance activities; *Buyers Guide to Automobile Insurance;* and *Buyers Guide to Homeowners and Tenants Insurance.*

naic activities

Illinois continues to be one of the leading states in the National Association of Insurance Commissioners (NAIC). Department staff served on approximately 24 standing committees, subcommittees and task forces during 1980.

Director O'Connor is Chairman of the Midwest Zone and also serves as Chairman of the Government Liason Subcommittee and the Competition Subcommittee and as Vice-Chairman of the Financial Regulatory Subcommittee.

In October of 1980, the Illinois Department hosted the Annual NAIC Zone IV meeting. Over 500 persons attended the five-day session held in Springfield.

summary of 1980 insurance legislation

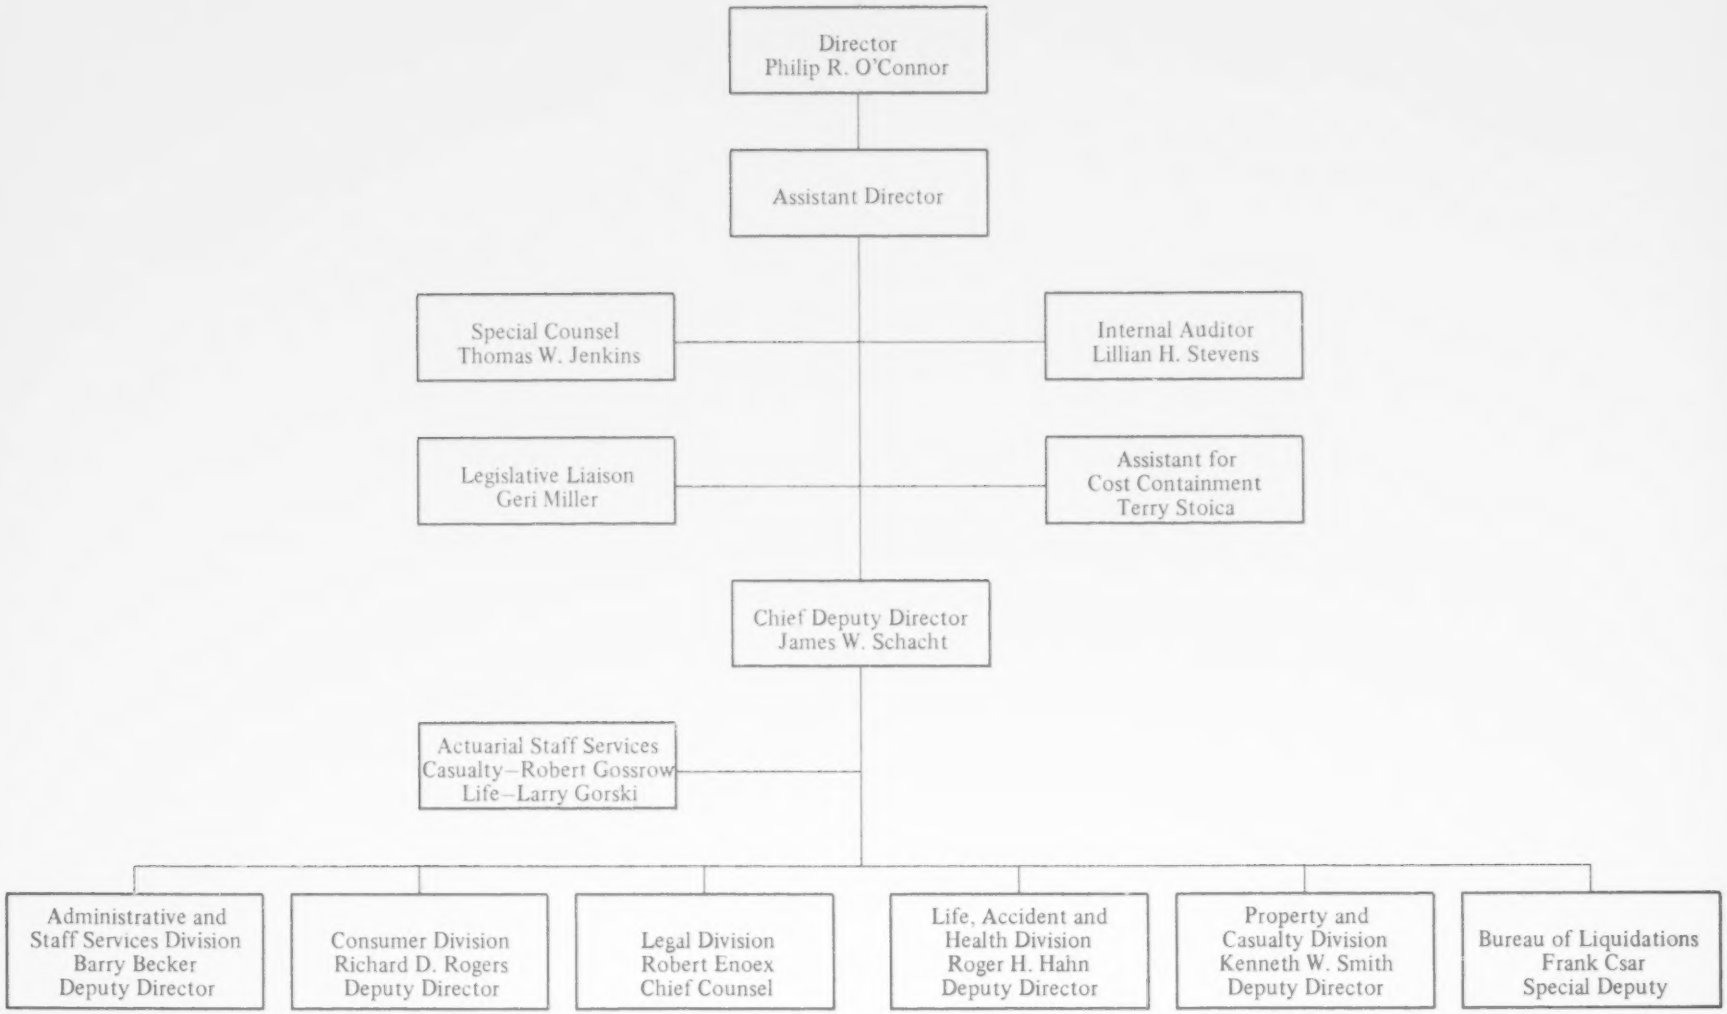
bill number	public act number	description
H.B. 746	81-1456	Expands the subscriber's right of free choice of physician under the Non-Profit Health Care Act. It includes podiatrists and podiatric services in the subscriber's free choice of physicians.
H.B. 3250	81-1482	Amends the Workers' Compensation Act. Provides that an employer may elect to obtain a life insurance policy on employees and may elect to apply such benefits in satisfaction of all or a portion of the death benefits under the Act, in which case the employer's compensation premium shall be reduced accordingly. Requires the Department to license and regulate group workers' compensation self-insurance pools. Changes the Second Injury Fund to the Rate Injury Fund and changes the mechanism for funding the Rate Adjustment Fund. Requires every insurer to furnish insureds with monthly reports of compensable claims incurred in preceding month and amounts paid or reserved for such claims. Requires a similar annual report to such insureds. Insured may challenge, before the Commission, payments made by an insurer without arbitration and payments made after a case is determined non-compensable. Requires that every insurer shall report annually to the Commission detailed information regarding the number of injuries and benefit amounts paid by category of loss. Requires every insurer shall offer at least a $1,000 deductible applicable only to medical benefits. Requires any workers' compensation rate filing shall: separate the incurred, but not reported losses; separate paid and outstanding losses; provide information regarding cases with a reserve in excess of $50,000; and provide information on the income on invested reserves. A company may provide a program permitting two or more employees who participate in an accident prevention program to pool their experience for group dividend purposes. Requires companies to furnish to the insured, upon request, in understandable language, all pertinent information regarding such rates, as specified in rules adopted by the Department of Insurance. Requires the Department to prepare and publish an informational booklet explaining, in readily understandable language, the factors which are used to devise the workers' compensation rates in this State.

H.B. 3271	81-1531	Directed at investigation of fires, specifically to disclose the beneficial interests in fires which are suspicious in nature. Requires the disclosure, under oath, by trustees of land trusts of the identity of all persons who have any direct or indirect interest in	the trust or who derive any direct or indirect benefits from the trust. Additional information is also required and penalties specified in the event of failure to make such disclosures.
H.B. 3272	81-1430	Provides that any person having an insurable interest in real or tangible personal property at a fixed location in an urban area who, after diligent effort has been unable to obtain basic property insurance, as evidenced by three attempts to procure such insurance, is entitled upon application to the Illinois FAIR Plan to an inspection and evaluation of the property. If the inspector finds that the residential property meets reasonable underwriting standards, the applicant shall be so informed in writing. If not, the applicant shall be informed in writing of reasons. The applicant may make improvements and request re-inspection.	Also, adds a paragraph to the Insurance Code that prohibits discrimination. Provides that no company, in any policy of accident or health insurance shall make or permit any distinction or discrimination against individuals solely because of handicaps or disabilities in the amount of payment of premiums or rates charged for policies of insurance, in the amount of any dividends or other benefits, or any other terms and conditions of the contract it makes, except where the distinction or discrimination is based on sound actuarial principles or is related to actual or reasonably anticipated experience.
H.B. 3291	81-1431	Requires that an owner of a residential building over four units post information relating to management and insurance cov-	erage. The information can alternately be supplied to tenants.
H.B. 3333	81-1432	Provides that the Director of Insurance shall form a task force to review policy forms and endorsements utilized by the FAIR Plan, specifically for residential multi-family units. This task force is	charged to consider the coverage and settlement provisions and to make recommendations to the Director of Insurance.

H.B. 3381	81-1462	Amends the Workers' Compensation Act to provide that the definition of "employee"	will exclude people who are paid on a commission basis in the selling of real estate.
H.B. 3435	81-1382	Requires the preparation of a policy check list where medigap policies are sold through solicitation. Requires insurance companies to refund premiums collected where medi-	care supplement policies are duplicative, inappropriate or not suitable considering existing coverage.
H.B. 3485	81-1470	Requires insurance companies and service plan corporations, which provide coverage under accident and health insurance poli-	cies and service plan contracts for mastectomies, to include coverage for re-constructive surgery incident thereto.
S.B. 1544	81-1452	Amends Illinois Vehicle Code to remove legal impediments to ride-sharing arrangements. It excludes from the definition of "chauffeur" people who are engaged in ride-sharing arrangements, and excludes	from the definition of a "commercial vehicle," a vehicle which is used in a ride-sharing arrangement. Further limits liability of employers regarding ride-sharing.
S.B. 1991	81-1426	Provides that when a policy for a building of more than four units is to be underwritten by the Illinois FAIR Plan, a special anti-arson application must be completed. The application will require disclosure of beneficial interests of any land trusts in which the property is held. Substantial changes in ownership also would be revealed. Provides that the FAIR Plan participants will receive credit against their assessment for those risks that they have voluntarily written in FAIR Plan areas designated by ZIP Code. Gives the Director of Insurance	specific authority to approve FAIR Plan rates. Also requires that underinsured coverage be offered and states how the offer must be made. Provides that all policies for liability imposed by law for bodily injury must include uninsured motorist coverage in an amount up to the insured bodily injury liability limits. Further provides for the right of election or rejection of additional uninsured motorist coverage and the required offer of under-insured motorist coverage.

S.B. 1992	81-1361	This public act has two parts. First, it provides that insurance companies in Illinois may market pre-paid legal expense insurance. Secondly, it gives the Director of Insurance the authority to establish a data base either with an outside agency or a	government agency in order that the industry, the Department of Insurance and law enforcement agencies will have, at their disposal, a consolidated source of information regarding claims fraud.
S.B. 1993	81-1427	Allows insurance companies to get off of risks under which they have been bound and which upon investigation they determine to be potential arson targets. Provides	that a ten-day notice to named insured shall be sufficient for an insurer to cancel the coverage.
S.B. 1994	81-1428	Expansion of immunity laws whereby insurers may provide information to the Fire Marshal, Department of Insurance, or	law enforcement agencies on those particular losses or potential losses that they believe may be attributable to arson.
S.B. 1998	81-1429	Requires that responsible individuals in each governmental body notify the State Fire Marshal's office by the 15th of each month following the occurrence of a fire	and that such notification will be in a format established by the State Fire Marshal's Office.

department organization



internal auditor

Illinois law requires that a program of internal audit be established in major state agencies. Subject to the administrative approval of the Director, effective internal auditing is an independent appraisal function, unrestricted in its scope, with no authority or responsibility for the activities audited.

The **internal auditor's** responsibilities include the evaluation of the organization's system of internal controls, the review of the reliability and integrity of financial and operating information, as well as the agency's compliance with established policies, procedures, laws or regulations, and the means of safeguarding assets.

The internal audit program for 1980 included:

- procedural audits of the timeliness of revenue processed – from mailroom distribution to the deposit of taxes and fees with the State Treasurer (48 hour statutory limitation);

- accountability of revenue collected, processed and deposited, totaling $97.9 million in FY 80;

- review and sampling of Department expenditures totaling $6.9 million;

- compliance of equipment and supply purchases with the Illinois Purchasing Act;

- monitoring the monthly reviews of itemized telephone charges for compliance with established policy for unauthorized use of the State's telephone systems;

- overview of payroll systems and controls tested with verification of payroll warrants distributed;

- semiannual physical verification on a stratified sampling basis of company securities on deposit with the Department and in safekeeping with a Springfield bank; totaling $212.8 million as of December 31, 1980;

- semiannual inspector audits with insurance companies regarding the performance of Department examiners;

- monitoring of and assisting in the implementation of external biennial CPA audit recommendations.

actuarial staff services

The **casualty actuary** reviews and makes recommendations concerning rate proposals for workers' compensation insurance, the Illinois FAIR Plan, and the Illinois Automobile Assigned Risk Plan, and analyzes medical malpractice rate filings on a use and file basis.

The casualty actuary carefully observes the market situation for insurance availability problems, especially concerning residential property (homeowners) insurance. He examines the quarterly data that companies are required to report, and through ZIP Code analysis, determines any potential market problem areas.

The Illinois workers' compensation system is undergoing significant changes due to recently adopted legislation. The casualty actuary assists in determining how these changes are affecting the system.

The Department of Insurance advocates open competition in pricing for workers' compensation and will work for passage of such legislation in 1981.

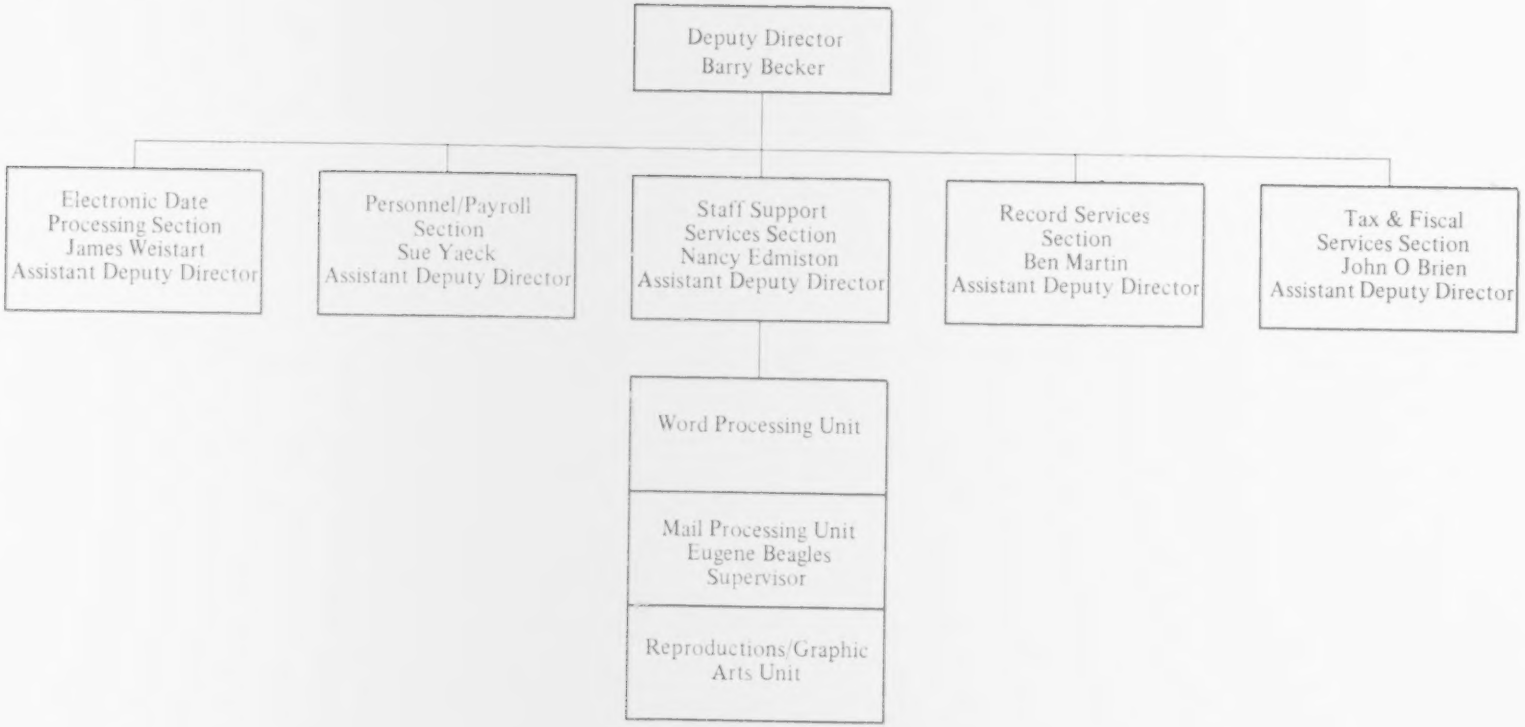
The **life actuary** assists in monitoring the financial condition of domestic life insurance companies; health insurance companies, including Blue Cross/Blue Shield and various pre-paid health plans; and the small municipality fire and police pension funds.

He also makes recommendations on the approval of trend factor filings and rate filings submitted by companies subject to the Department's statutory rate approval authority.

During 1980 the life actuary began a program of collecting and compiling life insurance cost information that eventually will be distributed through the public library system to assist the public in their insurance buying decisions.

During the past year, the Department's computer facilities have been increasingly utilized for trend factor analysis, claim reserve analysis, and financial solvency surveillance. Several computer programs have been developed to assist the Department's financial and actuarial examiners in their examination functions.

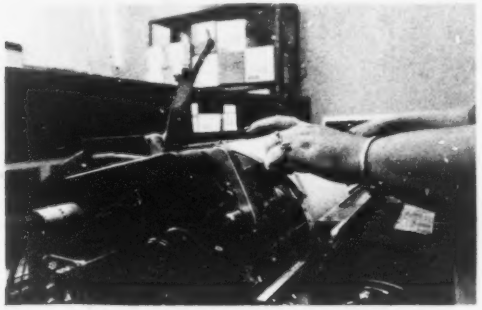
administrative & staff services division



electronic data processing section

The EDP section is responsible for all of the Department's data processing operations. Major applications include agent/broker licensing, insurance company, pension and complaint data base systems.

In addition, a personnel services salary projection system, a governmental accounting system, a bureau of liquidations claim system, ZIP code reporting, loss reserve analysis and field examiners auditing system are maintained by this section.



computer room–remote printer

personnel/payroll section

The personnel/payroll section is totally responsible for the administration of the Department's payroll preparation and record maintenance, State group insurance program, the Equal Employment Opportunity program, and budgetary preparation and maintenance dealing with personnel matters.

annual statement microfilming

record services section

The record services section provides filing and microfilming services to all divisions within the Department. In addition, this section is responsible for the coordination of the Department's file storage and record retention operations with other State agencies.

staff support services

The staff support services section is composed of the following units: word processing; reproduction and graphic arts; and mail and messenger services.

The **word processing unit** provides transcription and duplicating services for approximately 100 staff members. In addition to original dictation being transcribed and processed through this unit, specialized reports and composition work of a financial, technical or analytical nature are produced by the word processing staff.

The **reproduction and graphic arts unit** is responsible for producing various Departmental publications and other projects requiring the application of graphics layout and design techniques. This unit prepares final copy for printing and coordinates agency printing requests.

The **mail and messenger services unit** provides mail pickup and delivery throughout the Department and messenger services upon request. Over 500,000 pieces of mail are processed by this unit each fiscal year.

In addition to the above services, the staff support services section also provides receptionist and telecommunications support for the Department.

tax and fiscal services section

The primary responsibility of the tax and fiscal services section is the collection of all taxes and fees required by the Illinois Insurance Code. Over $97 million was collected during fiscal year 1980.

This section is also responsible for the surveillance of Departmental expenditures to assure compliance with allotted funds and State purchasing guidelines. In the past fiscal year the Department had a lapse balance of $479,261 compared to a total budget of $6,904,600.

Another function of this section is the exchange, withdrawal and receipt of all securities deposited with the Department for the protection of the creditors, policyholders and policy obligations of domestic insurance companies.

Over $201 million was held on deposit at the end of fiscal year 1980.

Following is the fiscal year 1980 summary of securities on deposit, taxes and fees collected and appropriations and disbursements.

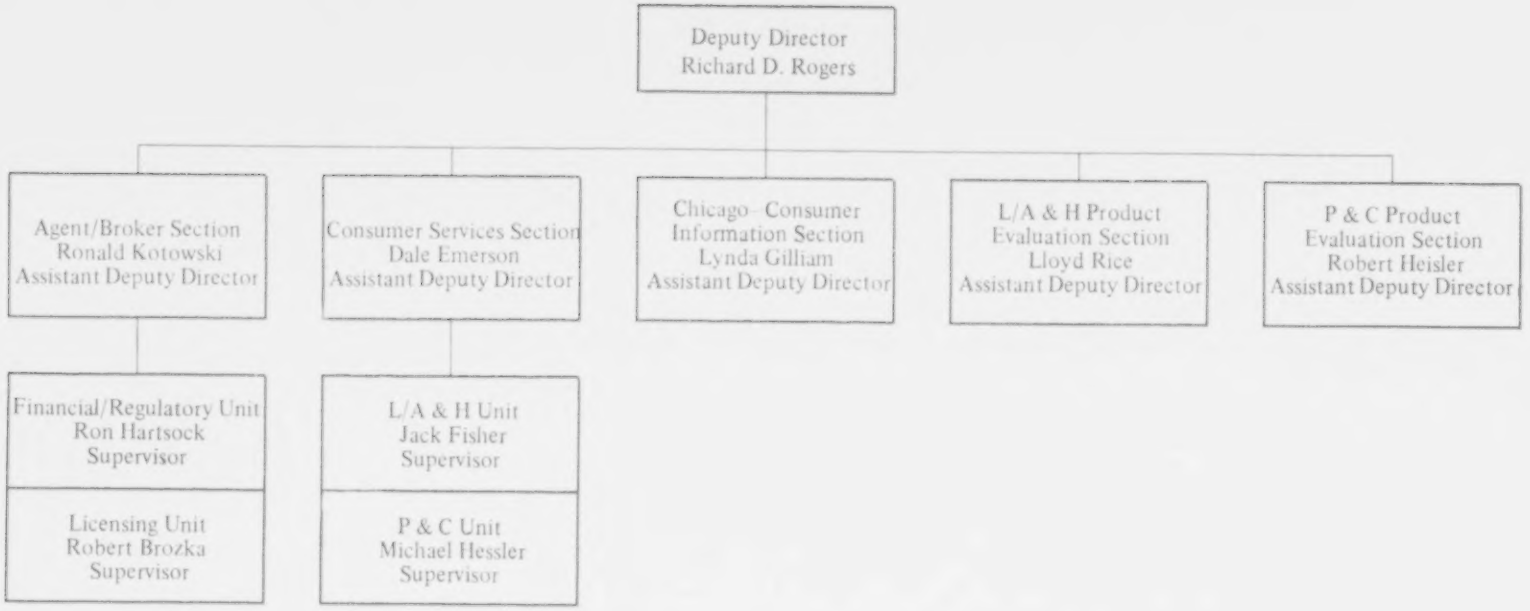
consumer division



agent/broker section

This section consists of two major units: regulatory and licensing.

The **regulatory unit** conducts financial examinations and investigations of agents, brokers, premium finance companies and bail bond companies to ensure compliance with the Illinois Insurance Code and the integrity of all licensees.

During 1980 the unit conducted 181 financial examinations and 514 investigations which resulted in the surrender, revocation or suspension of 92 licenses.

data entry–agent/broker data base

Activities of the **licensing unit**, whose function is to issue and cancel licenses, included:

License examinations scheduled–18,950

New licenses issued:
- agents–82,236
- brokers, resident–4,771
- brokers, non-resident–2,584
- premium finance–46

Licenses renewed:
- agents–215,811
- brokers, resident–24,379
- brokers, non-resident–4,771
- premium finance–398

consumer services section

The overall responsibilities of the consumer services section include the following:

- answering any inquiry pertaining to insurance;
- investigation of consumer complaints against all insurance companies, agents and brokers;
- accumulating and categorizing complaints by topic and company in order to identify potential problems and forward this information to the appropriate division for necessary regulatory action;
- participation in community outreach programs;
- working with the Emergency Services and Disaster Agency by providing individuals at the site of a disaster to assist policyholders in either filing their claims or understanding their insurance contracts; and
- researching and studying technical insurance matters to determine Departmental positions which may result in rules or legislation.

consumer assistance

The consumer services section tabulates and analyzes complaint data and through a ranking process recommends companies, agents and brokers who appear to warrant an examination. Complaint frequency in certain areas may indicate an improper business practice which can be measured and corrected by a subsequent examination.

In 1980 over 40 computer programs were established for in-depth complaint analysis. These reports categorize complaints by the major types (underwriting, claim handling, marketing); by status of complainant (insured, beneficiary); by ZIP code; by type of coverage; and by other subjects as requested.

During 1980 the consumer services section processed 17,203 complaints of which 10,142 (58.9%) were closed with relief granted. This section also processed 20,086 written and oral inquiries.

Other activities of the section included:

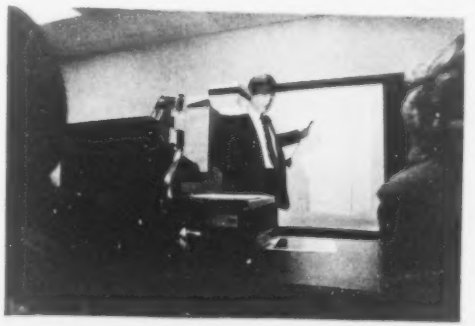
- publication of property and casualty complaint ratios;
- release, for the first time, of complaint ratios for life, accident and health companies operating in Illinois, reflecting complaints processed during 1979;
- continued liaison with the Emergency Services and Disaster Agency, particularly in the development of a nuclear disaster assistance program;
- continued operation of the Outreach Program. Besides the medicare/medi-gap slide presentation, the program now offers a slide presentation on automobile insurance. This presentation is designed for high school driver education and consumer programs, and explains the various insurance coverages available under the automobile policy.

consumer information section

Located in the Department's Chicago office, the consumer information section assists "walk-in" complainants and answers telephone inquiries on a variety of insurance matters. During 1980 this section handled 44,535 written and oral inquiries and 3,181 walk-in interviews.

Other activities included:

- participation in 25 insurance seminars and meetings;
- biweekly visitation to each community organization actively working with the Department of Insurance;
- participation in 23 senior citizens clinics;
- appearances on five television and radio programs;
- presentation of ten speeches to various private and governmental groups; and
- three public neighborhood hearings.



consumer outreach–medicare supplements

product evaluation sections

To the extent that all licensed insurance companies are required by law to submit new policies, forms and endorsements to the Department for review, the life/accident and health and the property/casualty product evaluation sections perform dual functions with respect to insurers under their jurisdictions. Each such submission is reviewed to gauge compliance with Departmental rules and regulations and contractual obligations to assure fair treatment to Illinois citizens.

Property/casualty companies are further required to file for informational purposes, underwriting manuals and rates for homeowners, residential fire and private passenger automobile insurance lines. During 1980 the **property/casualty section** reviewed 9,289 forms and 3,857 rate filings.

The **life/accident and health section** also reviews submissions which are ancillary to the life or accident and health product such as prospectuses, agreements and actuarial calculations which do not require approval but are formally placed on record; rate increase requests and advertising materials to ensure that they are not misleading or ambiguous. In 1980, 1,612 pieces of advertising and 35,102 policy forms were reviewed.

legal division

With the exception of formal court appearances which are within the jurisdiction of the Illinois Attorney General, the legal division handles all legal activities of the Department of Insurance.

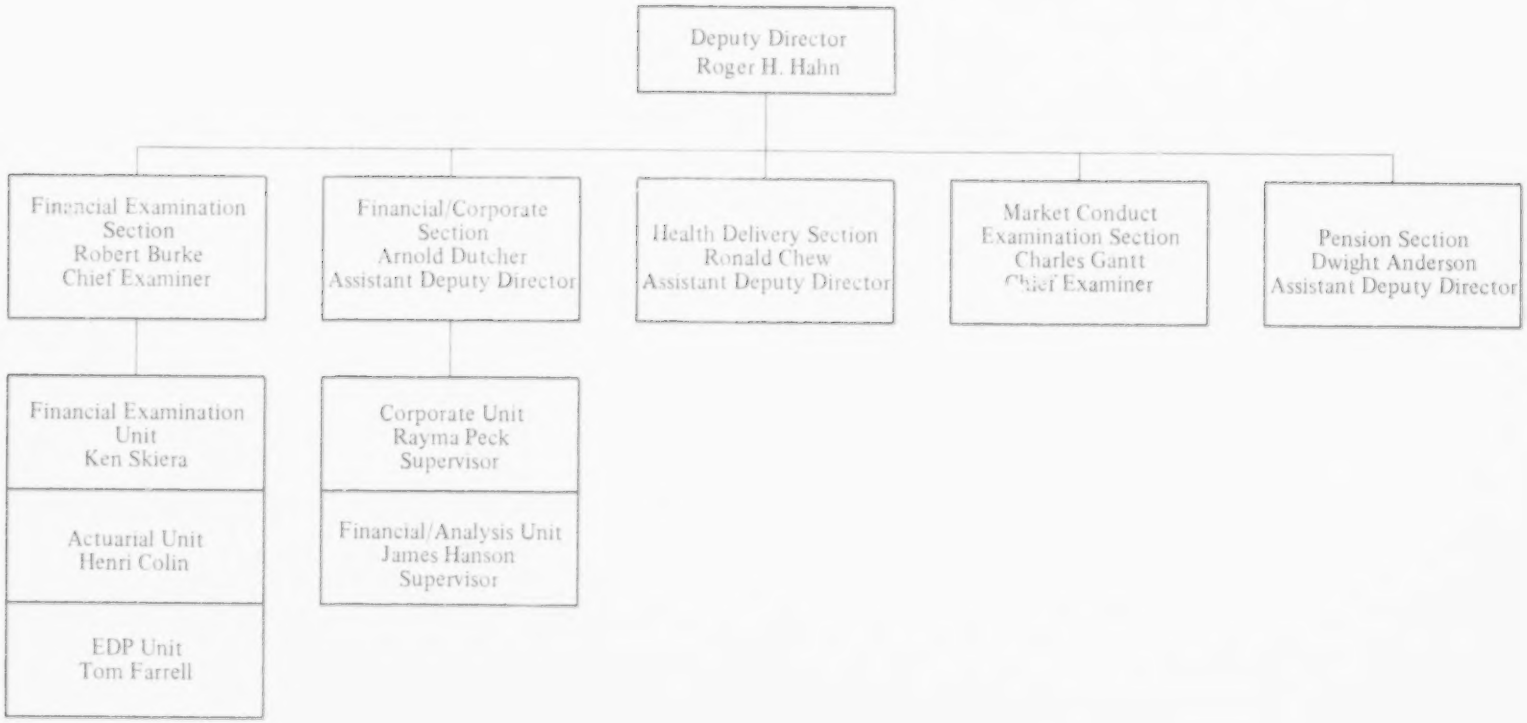
The division provides opinions to other members of the Department in connection with regulatory matters, reviews and drafts proposed legislation; provides advice and assistance in drafting and implementing formal rules and regulations; represents the Department at formal hearings; advises the Director about Department activities in the Illinois FAIR Plan, Illinois Automobile Insurance Plan, Illinois Guaranty Fund, Life and Health Guaranty Association, Illinois Insurance Exchange, and various federal insurance programs; advises the Director of legal matters and proceedings relating to the Bureau of Liquidations; and acts as the Department liaison with the Attorney General on matters involving administrative review of hearings, litigation involving the Department, and requests for formal opinions of the Attorney General.

During 1980 the legal division assisted with a number of major issues including: developing new examination report formats, notice and order forms; workers' compensation hearings on rates, self-insurance and cost containment; rate hearings for health insurance; major research projects, especially under the Holding Company Act; involvement with the Governor's Administrative Rules Commission; and five year review of rules by the Joint Committee on Administrative Rules.

A total of 74 hearings were scheduled by the legal division in 1980 as follows:

- cancellation/nonrenewal–21
- agent/broker revocations–17
- CPA audit filing–7
- Form A–7
- Form B–7
- pension–4
- rate–4
- cease and desist–3
- plan of exchange–2
- director's order–1
- examination report–1
- merger–1
- worker's compensation cost containment–1.

life, accident & health division



financial/corporate section

The activities of this section are administered by the corporate and the financial analysis units. The operations of both units mesh to fulfill the section's responsibilities which include the monitoring of companies' financial condition and corporate operations, review and approval of a variety of corporate documents and financial transactions, administration of statutorily mandated filings, and the licensing of life, accident and health insurers operating in Illinois.

The **corporate unit's** major role is to assure that the corporate operations of life, accident and health insurers comply with the Illinois Insurance Code and Departmental rules and regulations, and that all such insurers file and receive prior approval for a multitude of transactions and documents.

The unit also grants approval and conducts reviews relative to the incorporation and formation of any new domestic company. This activity includes detailed analysis of such items as all organizational documents, escrow and/or subscription agreements, plans of operation, and biographical information.

During 1980 there were 31 new life, accident and health companies licensed and 10 terminated. Total companies licensed at year end were as follows:

life/accident and health companies

	domestic	foreign	alien	total
stock legal reserve life	79	412	6	497
mutual legal reserve life	12	77	5	94
assessment legal reserve life	5	0	0	5
assessment accident and health	3	0	0	3
mutual benefit association	1	0	0	1
burial societies	12	0	0	12
fraternal benefit societies	26	64	1	91
health care service corporation	1	0	0	1
voluntary health services plan	9	0	0	9
vision service plan	1	0	0	1
dental service plan	1	0	0	1
pharmaceutical service plan	1	0	0	1
health maintenance organizations	12	0	0	12
totals	163	553	12	728

The HMO category is composed of five general not-for-profit corporations, two for-profit business corporations, and five voluntary health services plans corporations.

The Health Care Service Corporation under its own corporate charter offers three individual HMO plans. The addition of these brings the total number of companies with an HMO license to thirteen and the number of HMO plans to fifteen. No company is counted more than once in any classification.

The **financial analysis unit** monitors the financial condition of all life, accident and health companies licensed to transact an insurance business in Illinois. Since it is not always readily possible to make a detailed annual review of each company's annual statement, a priority assigning process has been developed that utilizes a computerized solidity testing system to schedule in-depth analysis of financial statements.

The purpose of these analyses is to identify those companies facing financial solvency problems. The unit also reviews financial transactions of subject companies that require the Department's approval.

financial examination section

The financial examination section performs field financial examinations of all domestic

life, accident and health insurance companies to determine financial solidity and compliance with insurance laws. In addition, this section is responsible for the financial review of fraternal benefit societies, burial societies, health maintenance organizations, and voluntary health associations.

Utilizing financial data obtained by the financial analysis unit, an examination schedule is prepared based upon a priority scheduling method. Emphasis is placed on conducting examinations on the basis of need rather than on the time lapse between examinations.

The use of EDP audit software packages is an integral part of the examination process. A majority of the financial examination staff have been trained on the technical aspects of the Easytrieve Program which allows examiners to independently test, with a high degree of accuracy, data contained in a company's EDP records. The program has proven to be very successful in determining the adequacy of claim reserves and the accuracy of other financial data. The program supplements other EDP packages that may be used by the financial examiners.

The results of the financial examinations conducted are contained in a report of examination that becomes a public document. In order to economize on the time spent in preparing and processing reports, an abbreviated form of the report was designed and adopted. This change has resulted in a substantial cost savings.

financial examiners on location

During calendar year 1980, this section completed 124 financial and actuarial examinations.

health delivery section

The number of HMO's licensed in Illinois increased from ten to thirteen during 1980 with applications of three additional organizations pending. During the year Department staff members served as faculty for a presentation on methods of financial regulation of HMO's. This seminar was presented to a large assembly of HMO regulators from other states and was conducted to develop consistent and effective HMO regulation at the state level.

The health delivery section is responsible for the following activities relative to non-profit health services organizations and health maintenance organizations: evaluation and approval or disapproval of a variety of corporate, financial and operational matters; licensing of companies; monitoring

of financial condition and performance of field examinations to determine compliance with insurance statutes and regulations; and review and approval of rate matters and contractual agreements between companies and health care providers.

market conduct examination section

Market conduct examinations of life, accident and health insurers are undertaken to evaluate a company's policies and procedures in regard to advertising, agents and broker licensing, underwriting, extension of nonforfeiture options, and claims processing. The market conduct examiners review the target company's records and files to determine whether its actions are in accordance with the provisions stated in its contracts and whether Illinois citizens are receiving fair and equitable treatment in all transactions.

Particular attention is directed toward evaluation of the company's compliance with the Illinois Insurance Code and Departmental rules and regulations. Such compliance contributes to some assurance that the company's philosophy and performance will result in fair and equitable policyholder treatment.

An additional and important task of the market conduct section is to review all records and files pertaining to complaints received by the company via the Illinois Department of Insurance. This review is conducted to gauge the degree of thoroughness and accuracy with which the company responds to the Department's inquiries.

During 1980 the life, accident and health market conduct examination section conducted 20 field examinations. Eight of these were of companies previously examined and included a determination of the companies' compliance with Director's orders issued pursuant to the prior exam.

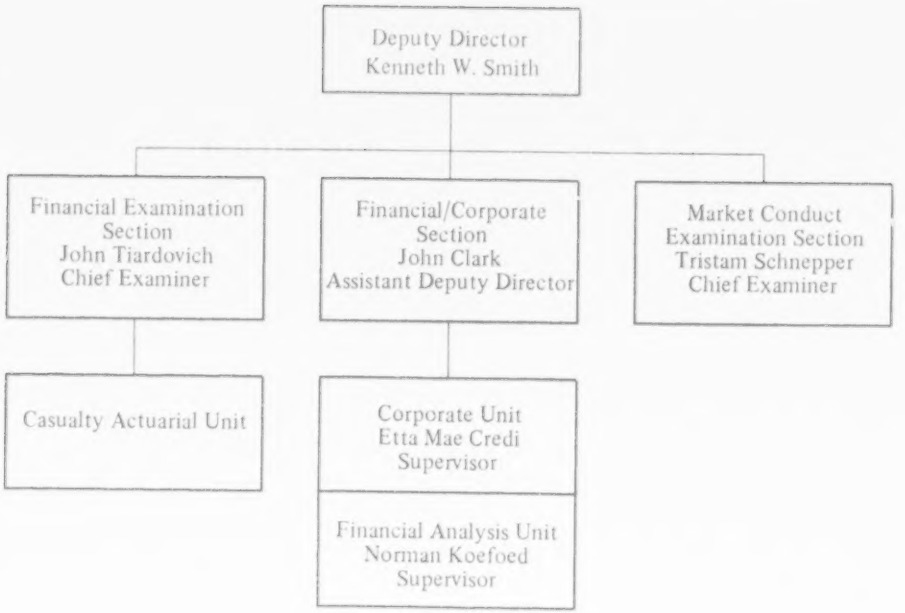
public employee pension fund section

As of December 31, 1980, there were 504 public employee pension funds and retirement systems in existence in Illinois—including 15 large consolidated systems and 489 separate funds maintained for the benefit of approximately 19,000 municipal policemen and firemen.

The pension section makes periodic examinations and investigations concerning the affairs of all public employee pension funds and retirement systems in the State; accumulates financial, actuarial, and statistical data pertaining to the operation of all such funds or systems; and provides advisory services to fund trustees and participants as well as members of the General Assembly.

During the year, 155 examinations were completed on police and fire pension funds totalling $171,137,671 in net assets.

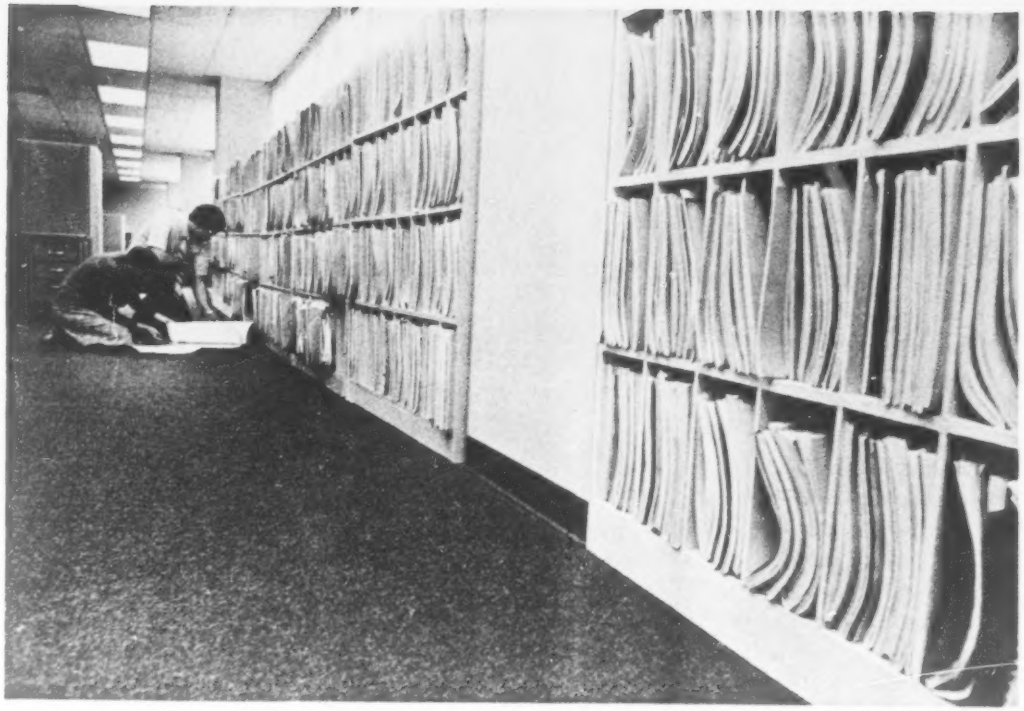
property/casualty division



The financial analysis and corporate units which compose this section perform functions nearly identical to those of the life/accident and health financial corporate section.

The **corporate unit** is responsible for evaluating the applications of companies organizing or applying for a certificate of authority. This responsibility includes the review of all corporate documents such as articles of incorporation, by-laws, and plans of operation, as well as supporting financial documentation. The unit also approves mergers and reorganizations, regulates the nonadmitted (surplus lines) market and is responsible for the regulation of county, township and district windstorm companies.

During 1980 there were 14 new property and casualty companies licensed and 7 terminated. Total companies licensed at year end were as follows:



annual statements . . .

property/casualty companies

	domestic	foreign	alien	total
stock	104	382	20	506
mutual	24	79	0	103
reciprocal	10	15	0	25
lloyds	0	1	1	2
farm	149	0	0	149
totals	287	477	21	785
religious & charitable risk pooling trusts	6	0	0	6
totals	293	477	21	791

The **financial analysis unit** monitors the financial condition of all property and casualty companies. This unit utilizes a series of solidity ratios to identify those insurers trending toward financial insolvency. Both the life/a & h and the property/casualty financial analysis units also rely extensively on annual CPA audits of the annual statements of domestic insurers. These audits, while not intended to supplant in-depth financial examinations, are

an additional means for identifying problem companies.

financial examination section

The financial examination section conducts periodic field examinations of property and casualty companies to determine their compliance with insurance laws and regulations and to ascertain the financial condition of domiciled insurers. In calendar year 1980, the section performed 46 financial examinations and 12 limited examinations.

A problem facing both the property/casualty and life/accident and health financial examination sections in the past few years has been a decline in the number of financial examiners. A major recruitment effort begun in 1978 has improved the field staff level. As of December 31, 1980, the section was staffed by 19 financial examiners, 1 claims examiner and 2 actuarial examiners.

There are more property/casualty insurers incorporated in Illinois than in any other state. Similarly, Illinois ranks fourth in the number of life, accident and health insurance licensed. An adequate staff of examiners is necessary to conduct more exhaustive audits of insurance companies and to reduce the time between periodic audits.

market conduct examination section

The property/casualty market conduct examination section is responsible for the evaluation of the nonfinancial operations of property and casualty insurers licensed in Illinois. Examinations are conducted to gauge company compliance with Illinois statutes and Departmental rules and regulations and company performance under the policy contract to assure fair treatment of Illinois citizens in regard to underwriting and claims practices.

This section had 15 examiners as of December 31, 1980. During the year 40 examinations were conducted including a special arson study of the Illinois FAIR Plan's losses, and a study of the non-standard automobile liability market in the Chicago area.

Other activities included:

- investigation of debit fire insurance;
- investigation of motor clubs;
- investigation of dual interest automobile insurers;
- task force assessment of activities of warranty programs;
- increased public awareness of the mine subsidence program through speeches and distribution of printed materials.

In 1981 this section, in addition to routine examinations, expects to conduct a major review of automobile underwriting guidelines. The section will also review the operation of religious and charitable risk pooling trusts, as well as workers' compensation group self insurance pools.

bureau of liquidations, conservations & rehabilitations

The Bureau of Liquidations, Conservations and Rehabilitations is operated on behalf of the Director of Insurance, State of Illinois, as the duly appointed Liquidator, Conservator or Rehabilitator of insurance companies determined by a court of competent jurisdiction to be insolvent under the provisions of Articles XIII and XIII½ of the Illinois Insurance Code.

The Bureau operates under the supervision and control of a Special Deputy through a power of attorney executed by the Director of Insurance, granting the Special Deputy the authority to take the necessary action to expedite the processing of each company estate under the Buearu's jurisdiction.

The Bureau performs the following functions pursuant to statutory authority: the marshalling of company assets; and the evaluation of claims filed by all interested parties to determine the total claim liability developed against such companies with a view toward making a maximum dividend distribution as promptly as possible to all policyholders, claimants and creditors whose claims have been approved for allowance.

Following is a brief report of the status of each company estate for the period January 1, 1980, through December 31, 1980.

The accompanying exhibits of cash receipts and disbursements reflect all transactions involving the estates under the jurisdiction of the Bureau of Liquidations for calendar year 1980.

american association of trauma specialists medical benefit plan & trust

This entity is also known as the American Association of Trauma Specialists Medical Benefit Trust (AATS).

The Department of Insurance received complaints from individuals insured by this unauthorized Trust for certain major medical coverages indicating substantial delays in the payment of claims. The examination section was requested to perform a limited examination to ascertain the cause of such complaints and the financial condition of this Trust. The examiners determined that the Medical Benefit Trust was formed in 1977 and offered major medical coverage to its members until December 1, 1979, when the insurance was discontinued and all business was cancelled. On December 18, 1979, the Department of Insurance issued its Order to Cease and Desist.

An Order of Conservation was entered by the Circuit Court of Cook County, Illinois, on February 1, 1980. This Order was amended to an Order of Liquidation on March 20, 1980, inasmuch as it was determined that AATS was insolvent. Bureau of Liquidations and Insurance Department staff members met with Trustees of AATS and an Assistant Attorney General. The Order setting the Time and Procedure for Filing Claims was entered August 25, 1980, and provided that Proofs of Claim be mailed on or before September 5, 1980. On August 26, 1980, a total of 157 Proofs of Claim were mailed. As of October 16, 1980, the final date set by the court for filing claims, 61 claims were filed, totalling $297,664.38. Two claims were filed subsequent to October 16, 1980, and they are being considered "late claims."

The Employers Reinsurance Corporation has been put on notice regarding possible reinsurance recoverable.

The claims will be evaluated and releases will be sent to the claimants whose claims will be recommended for allowance. A decision as to eventual payment of these claims will be made at a later date.

From the takeover to December 31, 1980, receipts indicated $4,051.06. A disbursement of $175.72 was made, and the total cash available in the estate as of December 31, 1980, amounts to $3,875.34.

cure health plan, inc.

This company was ordered into liquidation on October 7, 1976, by the Circuit Court of Sangamon County, Illinois because of insolvency.

A total of 211 claims were filed against Cure in the amount of $1,800,869.04; 96 were recommended for allowance in the amount of $1,023,355.46; and a First and Final Dividend of 23.6%, amounting to $241,507.17 was issued to the 96 claimants on June 20, 1980.

The Order entered April 17, 1980, which instructed the payment of this dividend also provided that the estate be closed and the Liquidator discharged from any further responsibility at the time the checks were mailed. Thus the estate was closed on June 20, 1980.

During the period January 1, 1980, through December 31, 1980, cash receipts totalled $20,630.03. Disbrusements for the same period, including the First and Final Dividend of 23.6%, amounted to $259,863.83. Cash available as of December 31, 1980, is $7,910.70. (These funds are being held for the Liquidator's use in paying future accounting fees, taxes, storage of records and files, correspondence, etc., per the court's Order entered April 17, 1980, covering expenses through the escheat period.)

fidelity general insurance company

An Order of Rehabilitation was entered by the Circuit Court of Sangamon County, Illinois, on August 21, 1970, and when it was determined the company could not be rehabilitated, a Liquidation Order was entered December 4, 1970. In excess of 11,300 claims were timely filed and 8,084 have been recommended for allowance to date in the total amount of $8,558,729.86. During the month of May 1980 an Order was entered vacating 275 claims which had previously been allowed to Louisiana claimants in the amount of $86,413.24, and a miscellaneous group of 46 claims which had been allowed previously for $91,969.77.

The Bureau assisted the Louisiana Receiver in finalizing his files and the Ancillary Receivership paid their claimants a First and Final Dividend distribution of 79.3% in the fall of 1980.

A First and Partial Dividend distribution of 30% was issued to the claimants whose claims were recommended for allowance December 26, 1980. A total of 8,198 checks totalling $2,567,622.34 were issued.

The suit involving this company and the Texas Consumer Finance Corporation has not been settled to date. Since the Liquidator might be unsuccessful in his original Motion to Dismiss and liability could be quite substantial, only a partial dividend was made to the claimants at this time.

During the period January 1, 1980, through December 31, 1980, cash receipts totalled $789,696.49. Total cash available in the estate as of December 31, 1980, amounts to $3,357,989.03.

All of said funds are presently invested in Time Certificates of Deposit and Treasury Bills at the highest rates of interest available.

home owners insurance company

This company was ordered into liquidation by the Circuit Court of Sangamon County, Illinois, on Arpil 8, 1971. In excess of 7,000 claims were timely filed with the Liquidator and 5,900 have been recommended for an allowance of $3,892,436.36. At December 31, 1980, 25 claims remain to be resolved.

The Liquidator has concentrated on recovery of reinsurance from the following during 1980: Allstate Insurance Company; Northeastern Insurance Company of Hartford; Nationwide Mutual Insurance Company; Unity Fire and General Insurance Company; and Glacier General Assurance Company.

The amount recovered from these various reinsurers comes to $511,398.33. We expect to recover more reinsurance for this estate in the coming year.

During the period January 1, 1980, through December 31, 1980, cash receipts totalled

$826,331.80. As of December 31, 1980, total cash available to the estate amounts to $2,525,596.54.

All of said funds are presently invested in Time Certificates of Deposit and Treasury Bills at the highest rates of interest available.

la salle national insurance company

An Order entered by the Circuit Court of Cook County, Illinois, placed this company in liquidation on December 28, 1971, because of insolvency.

With 16,720 claims filed with the Liquidator, to date 10,982 have been recommended for allowance in the amount of $12,425,708.62. The Illinois Insurance Guaranty Fund, which is involved with this estate, has at December 31, 1980, paid out the sum of $6,852,035.00 on all claims covered by the Guaranty Fund Act. Remaining to be processed at this time are nine claims, while the balance have been recommended for disallowance.

During the period January 1, 1980, through December 31, 1980, cash receipts totalled $335,057.96. Cash available to the estate as of December 31, 1980, amounts to $3,313,858.78.

All of the said funds are presently invested in Time Certificates of Deposit and Treasury Bills at the highest rates of interest available.

main insurance company

An Order of Rehabilitation was entered by the Circuit Court of Cook County, Illinois, on January 19, 1977. (This was a voluntary rehabilitation, obtained with the consent of the company's Board of Directors.)

Since the date the Rehabilitation Order was entered, the Rehabilitator paid as many legal fees, accounting fees and consumer claims approved for allowance as funds permitted.

In an effort to marshal assets: reinsurance has been recovered where possible; certain securities were sold or reinvested; some securities held by various states were turned over to the Bureau; certain funds were placed in draft accounts; and some were converted into Certificates of Deposit and/or Treasury Bills.

During the months of September and October all books, files and records belonging to Main were removed from the premises at 1221 North LaSalle Street, Chicago, Illinois, and delivered to the Bureau at 173 West Madison Street, Chicago, Illinois.

On December 28, 1979, a "Plan of Rehabilitation" was entered by the Circuit Court of Cook County for the purpose of determining whether rehabilitation was possible. The law firm of Wildman, Harrold, Allen and Dixon, with Kevin Martin in charge, commenced Phase One of the Plan of Rehabilitation. During the summer of 1980 the Rehabilitator's staff determined that Phase One was not working and recommended that an Order of Liquidation with a finding of involvency be entered. However, to date no such Order has been entered.

During the period January 1, 1980, through December 31, 1980, cash receipts totalled $1,304,946.22. Cash available to the estate as of December 31, 1980, amounts to $451,022.10.

All of said funds are invested in Time Certificates of Deposit and Treasury Bills at the highest rate of interest available.

market insurance company

On July 2, 1979, by Order of the Circuit Court of Cook County, Illinois, Market Insurance Company (MIC) was placed in rehabilitation pursuant to a finding that any further transaction of business by MIC would be hazardous to its policyholders, creditors, and/or the public in general. On December 16, 1980, a Final Order of Liquidation with a finding of insolvency was entered against MIC. The claim filing deadline is December 31, 1982; contingent claims must be liquidated by December 31, 1983. Proof of Claim forms were mailed to all known claimants and policyholders since 1976 and to agents. To date, 132 policy claims, 351 loss claims and 43 agent claims have been received by the Liquidator.

Since MIC was licensed as an authorized writer only in the State of Illinois, the Illinois Guaranty Fund is the only such fund triggered by this liquidation and 152 claim files were sent them for handling. All other files (representing states where MIC operated but was not licensed) will be retained and handled by the Liquidator.

During the period January 1, 1980, to December 31, 1980, cash receipts and disbursements totalled $6,277,841.70 and $9,225,702.89 respectively. Not included in Cash Receipts is a major asset resulting from the sale of American Reserve Insurance Company of New York, a wholly owned subsidiary of MIC. By year end, a contract of sale for $4,625,000.00 was executed with a transfer of funds slated for January 1981.

missouri general insurance company

This company was placed in liquidation by the Circuit Court of Jackson County, Missouri, on September 12, 1975. A temporary injunction was entered October 30, 1975, in the State of Illinois and on November 6, 1975, an Order of Conservation was entered in the Circuit Court of Sangamon County, Illinois. By the court's further Order, a claim filing date and procedure were established in connection with the claims of Illinois residents which are covered by the Illinois Insurance Guaranty Fund.

A total of 424 claims were timely filed in the Conservation proceedings in the amount of $5,179,458.34; 290 have been recommended for allowance in the sum of $423,693.14; and 103 claims were disallowed. One was voluntarily withdrawn by the claimant and 30 remain to be processed.

To date the Illinois Insurance Guaranty Fund, which is involved in this estate, has paid out the sum of $298,685.84. The amount recommended by the Conservator to date but not paid is $125,007.30.

During the period January 1, 1980, through December 31, 1980, cash receipts totalled $6,646.92. Cash available to the estate as of December 31, 1980, amounts to $55,426.81.

All of said funds are presently invested in Treasury Bills at the highest rate of interest available.

multi-state inter-insurance exchange

On September 11, 1964, this company was ordered into liquidation by the Circuit Court of Cook County, Illinois, because of insolvency. Of the 2,207 timely claims filed with the Liquidator and adjudicated by the court, 1,160 have been approved for allowance in the amount of $924,362.41. The balance of the claims were approved for disallowance.

A First and Partial Dividend of 35% was mailed to 1,155 claimants whose claims were allowed on October 14, 1976, and a 100% dividend was sent to five preferred (salary) claimants with allowed claims.

This company's claim against the assets of Progressive General Insurance Company was approved by the court on November 25, 1980. Certain securities will mature in early 1981 and the Liquidator will then issue payment to Multi-State. This, in turn, will allow the Liquidator to issue a dividend of 65% to the claimants whose claims were recommended for allowance. Thus with the 35% they received in 1976, they will have been made whole. Sufficient funds will remain to allow a 100% dividend to the claimants who filed "late claims."

In August of 1966 an assessment was levied against the policyholders and spread of record September 13, 1967. This assessment was collected until August 7, 1969, when the law governing assessment of policyholders who were covered by policies in a mutual insurance company that contained a contingent liability provision, was repealed. As a result of Multi-State's recovery of a substantial amount from Progressive, there should be an excess of funds remaining and the Liquidator will attempt to return to those policyholders who had paid the assessments levied against them, a small pro-rata portion of whatever funds remain. This will be done some time in 1981.

During the period January 1, 1980, through December 31, 1980, cash receipts totalled $64,734.48. Cash available to the estate as of December 31, 1980, amounts to $596,794.09.

All of said funds are presently invested in Time Certificates of Deposit and Treasury Bills at the highest rate of interest available.

progressive general insurance company

An Order of Liquidation was entered by the Circuit Court of Cook County, Illinois, on March 20, 1968, because of a finding of insolvency. A total of 4,675 claims were timely filed with the Liquidator, of which 3,277 were approved for allowance by the court in the amount of $2,265,685.61 and 1,396 were approved for disallowance.

Two dividend distributions totalling 100% were paid to the claimants of timely filed claims approved for allowance, and a First and Final Dividend distribution was issued to 99 claimants of late filed claims.

On November 25, 1980, the court entered its Order approving the claim of Multi-State Inter-Insurance Exchange and instructing the Liquidator of Progressive as follows:

1. That Multi-State's claim to impress a constructive trust upon the property located at 180 West Randolph Street, Chicago, Illinois, is allowed and the trust shall attach to the net sales proceeds of $191,984.89; and further that statutory interest be allowed on this constructive trust—as well as proceeds from May 11, 1977, until paid.

2. Multi-State's claim of $116,154.00 for leasehold improvements is allowed in the amount of $76,154.00.

3. Multi-State's claim of $362,000.00 for purchase of Progressive General Insurance Company stock is allowed in the amount of $198,887.50.

4. It is further Ordered that these claims be paid in full and as soon as conveniently possible. (This will be accomplished as soon as certain securities mature in early 1981.)

It is expected that this estate will be closed and the Liquidator discharged from any further responsibility in May of 1981.

During the period January 1, 1980, through December 31, 1980, cash receipts totalled $54,533.41. Total cash available as of December 31, 1980, amounts to $506,735.05.

All of said funds are presently invested in Time Certificates of Deposit and Treasury Bills at the highest rate of interest available.

prudence mutual casualty company

This company was ordered into rehabilitation by the Circuit Court of Cook County, Illinois, on October 1, 1969. When it became apparent that the company was hopelessly insolvent, the court entered an Order of Liquidation on February 6, 1970.

A total of 9,032 claims were timely filed with the Liquidator; 5,046 have been approved for allowance in the amount of $6,384,394.23; 22 claims remain to be resolved; while the rest have been either disallowed or voluntarily withdrawn by the claimants.

The suit of **Geeslin vs. Blackhawk Plumbing and Health Company, Inc.**, which also included the Liquidator of Prudence, was finalized and the Liquidator did not realize any funds therefrom. Geeslin, as Liquidator for United Bonding, and the Liquidator of Prudence, in keeping with the recommendations of the respective counsel, decided not to take any further action with this matter. The Escrow Account that was shared equally with United Bonding was relinquished to Blackhawk by the Liquidator, as per the direction of the court.

During the past year the Liquidator has intensified efforts to sell the property located in Philadelphia. The appraisal of the property was updated and a new realtor was engaged to seek out a possible purchaser; but to date, no sale has been accomplished.

During the period January 1, 1980, through December 31, 1980, cash receipts totalled

$323,165.91. Cash available to the estate as of December 31, 1980, amounts to $3,082,855.90.

All of said funds are presently invested in Time Certificates of Deposit and Treasury Bills at the highest rates of interest available.

reserve insurance company

On May 29, 1979, a Final Order of Liquidation with a finding of insolvency was entered against Reserve Insurance Company (RIC) by the Circuit Court of Cook County, Illinois. In excess of 87,000 claims were timely filed (7,000 loss claims; 4,800 general creditor claims; and 76,000 return premium claims). Eleven state insurance regulatory authorities created ancillary receiverships. With three exceptions, all state Guaranty Funds (including Puerto Rico's) were triggered by the liquidation and are actively adjusting and paying claims in their states. Alabama and Oklahoma did not have Guaranty Funds at the time and RIC was not licensed in New York. An early access plan was created as provided by statute in anticipation of an estimated $10,000,000 first distribution in 1981 to compensate Guaranty Funds for administrative expenses as well as a prorata share of claims paid.

In a continuing effort to marshal RIC assets, a national collection effort has resulted in a recovery of $1,233,344.75 in agents' balances and $319,735.47 in subrogation. Three statutory deposits totalling $160,000 were released to the Liquidator and the sale of real estate netted $939,982.72.

During the period of January 1, 1980, to December 31, 1980, cash receipts and disbursements totalled $11,828,422.34 and $4,843,317.87 respectively.

summary of annual statements

On or before March 1 of each year, Illinois law requires that all companies, except Farm Mutuals, authorized to transact the business of insurance in this State file, under oath, an annual statement covering the preceding year ending December 31.

Farm Mutual Insurance Companies are required by law to file an annual statement, under oath, on or before January 31 of each year, covering the preceding year ending December 31.

The following schedules present a summary of the financial information contained in these annual statements for the year ending December 31, 1980. The Department of Insurance has not verified this data and does not guarantee its accuracy.
